# Autocad 2019 activation guide

You don't need a request <sup>3</sup> for subscription software or access your software online using a Company Number and Product Key. After you activate online, you cannot continue using the 2021 software and later offline. (This request may take up to 48 hours.) Click Close to exit the wizard and resume using your software in test mode. The following screens appear only if your computer is not connected to Internet. Click Enable on the free trial screen. Select "Request an active <sup>3</sup> using an all offline mAbc" and click AvanÅsar. Enter your Product Numbers and Key and click AvanÅsar. Note: <sup>3</sup> and manual activation are required only for perpH license software. Note: Autodesk no longer supports offline active for 2021 and later products. If you don't have a perpÅ© your license, I can activate your software by going online only once. Request <sup>3</sup> are required only if you do not have perpÅublic license software and need an active <sup>3</sup> to manually activate the software on a computer without access to Internet. For one, see Find Request <sup>3</sup> for manual activation. This is an offline process. Note: You don't see this screen and option only if your computer doesn't have an active connection Internet. If you do not find a previously generated request <sup>3</sup>, generate a new one following the p instructions. If you did not purchase your software and did not use it as a free trial, you do not yet need to activate your software on the free trial screen. In the AutoCAD Product Licensing Activation Wizard, select Activate, and then click AvanÅar. Click Sign up and activate (receive an active <sup>3</sup>). Enter your registration p and fax information or send the information p Autodesk.
